AGENDA TOPICS

**Agenda topic: Monthly Meeting Dates**

Two committee members could not be present at this meeting. Dates and times for future meetings were proposed. It was decided that meetings should be regular/predictable (i.e. same day of the month/week). November 21 @ 1:30 and December 12 @ 1:30 were proposed. These dates are tentative and will be decided via email in the next week.

**Agenda topic: Yearly Budget and New events**

The yearly budget was discussed so that all members are aware of what events can be done. A call for suggestions for new events was also put forth and a general consensus was that a new event to encourage socialization of graduate students should be planned for winter or spring.

**Agenda topic: Fall Event/Grad Bash**

Due to the short amount of time available for planning a Fall event, it was decided that this fall the Social Committee would continue with the regular Grad Bash event. The date for the event was set for November 30 at 4:30-6:30 PM at the Getaway Café. The “December” General Council meeting will follow at 7 PM in HUB 265.

**Agenda topic: Collaboration with Sustainability Committee for Events**

The idea was put forth that the Social Committee should consider collaborating with the Sustainability Committee for future events to help encourage sustainability throughout the graduate student community.
